

TOYINE

enchancing woven artistry

Made in France

Collection: INDI OR

Design: Cinq Cent Quatre-Vingts (580)

Fabric Width: +/- 159cm / 62.2 in

Vertical Repeat:

Upholstery Weight: +/- 63.1cm / 24.8 in

Lurex: This fabric is available with and without lurex

Composition: 36,9% Leather; 27,5% Wool; 21,5% Viscose; 11,5% Polyester; 2,6% Polyamide (Composition may vary depending on colour)

Suggested applications: Upholstery / Curtains / Wall Covering

Softness: medium

Flame resistance: This fabric is not fire rated; fire treatments may be needed.

Material properties – the qualities of leather

Breathable

Flexible

Durable

Fire resistant

100 %Natural

Provenance: This product is made in France using traditional looms supporting the French weaving know-how All materials are sourced in Europe and dyed in France.

Special instructions:

Our fabrics and woven leathers must be backed for upholstery, and special care taken for curtains and blinds, prior to cutting, please contact us for more details.

Leather Maintenance:

We weave with full grain aniline and semi-aniline chrome free leathers. Depending on the design of the weave, we also expose the suede side of the hides. These types of leather are meant to patina with time and wear, like a beautiful leather jacket, and can absorb oils and other marks. To maintain the leather, we recommend that the leather be wiped weekly with a dry cloth to remove dust, as the pores are still open. Should dirt/dust accumulate, we recommend gently vacuuming the surface without rubbing.

Should the leather become stained or dry, please contact us for a leather sample upon which to test commercially available leather cleaning or conditioning products. Applying any product to the woven leather prior to testing, may damage and/or mark the surface.

Natural fibers and leathers are subject to variations in colour and texture. These variations or slight imperfections are an intrinsic part of our work.
