## Material properties – the qualities of linen

- 100 % natural
- 100% Eco-responsible (low water needs, sustainable cropping and manufacturing systems)
- Hygrometry regulator
- Antistatic
- Fire retardant
- Hypoallergenic

**Provenance:** This product is made in France using traditional looms supporting the French weaving know-how

## Special instructions:

Our fabrics and woven leathers must be backed for upholstery, and special care taken for curtains

## Fabric Care:

Due to the variety of different types of yarns used in any one of our fabrics, we recommend contacting a professional cleaning service in case of stains. We can supply you with a fabric sample upon which to test commercially available cleaning products. Applying any product to the fabric
